## QUARTERLY REPORT ON ACTIVITIES October to December 2016

---

### Overview

During the Quarter Copper Strike Limited ('Copper Strike' or 'the Company') continued to hold its investment in Syrah Resources Limited (ASX: SYR) as that company progresses with construction at its Balama graphite project.

The Company's operating costs continue to be tightly controlled, with low ongoing expenditure.

On 28 November 2016, the Company held its Annual General Meeting in which all resolutions were carried.

Copper Strike currently has no exploration interests.

### Syrah Shareholding

Copper Strike owns 11 million shares in Syrah Resources Limited, which is a holding of 4.2%. The Company remains pleased with development progress being made at Syrah in relation to its Balama Graphite Project which remains on schedule for construction completion in April this year. During 2016 Syrah completed a \$194 million capital raising which, with existing cash holdings, has allowed Syrah to fully fund construction of its mine, processing plant and associated infrastructure. In addition, Syrah has accelerated its spherical graphite strategy in response to significant market demand.

Copper Strike strongly supports the Syrah strategy in relation to the development of the Balama graphite processing plant and its proposed spherical graphite processing facility in the United States.

Copper Strike believes that the share price of Syrah continues to have considerable upside as the construction phase of the Balama development draws to a close and first production commences. In addition, any announcements by Syrah in relation to its dealings with its offtake partners and other stakeholders may provide significant share price momentum. As such the directors are of the view that it is in shareholders' best interests for the Company to continue to hold this investment to ensure that the potential upside in relation to the development of the world class Balama Project is reflected within the Syrah share price.
